Beware! Tyre thieves on the prowl in city

Mysuru, Sept.10 (SSV)- The drivers of two parked goods pick-up vehicles had a shock of their lives when they found that miscreants had stolen three tyres along with discs (wheels) in the early hours of today.

Sunil and Nandish, residents of Hebbal in city, drive goods pick-up vehicles for a living and their houses are situated close to Hebbal Police Station.

After the day's work last night, they had parked their vehicles near their houses. When they came out of their houses to go on work today, they found two wheels from one vehicle and one wheel of another vehicle missing. The thieves had kept size stones under the chassis to easily remove the wheels. It looked like a professional gang behind it.

The duo immediately rushed to the nearby Hebbal Police Station and lodged a complaint.

Sunil said each wheel including tyres will cost around Rs. 6,000 and now he has to shell out Rs. 12,000 to buy new ones.

Earlier, the thieves had stolen batteries from parked vehicles but this was the first time they have taken away the wheels.

"Already, our business has been hit due to COVID-19 and how can we manage thousands of rupees to buy new wheels. Without driving the vehicles, we cannot maintain our families," he added.

Stealing wheels from parked vehicles is quite a common feature in Bengaluru. The cops are tired of such cases as thieves sell the stolen property in the scrap markets.

As a result, most of the cases go undetected and the wheels cannot be retrieved, said a neighbour of Nandish.

Discarded surgical masks add to bio-hazard

MCC to penalise people who do not dispose of masks in a responsible way

Mysuru, Sept. 10 (MTY&BCT)- Wearing a mask is the new normal, but what happens to the one-time use surgical masks? They are discarded on streets, sidewalks, gutters and roads. This habit of throwing masks and gloves along with other trash is a matter of growing concern in city.

Though gloves and masks come with proper disposal directions, people are indiscriminately throwing them on the roads. Discarded masks and gloves have been spotted in several places across the city, a few even flying off the open garbage bins.

Pourakarmikas have been regularly complaining to the Mysuru City Corporation (MCC) about this careless attitude that risks the lives of others. "We have been collecting several discarded masks and gloves while we are cleaning the roads in city. They are found in parking lots, residential colonies, sidewalks and around open garbage bins. People simply throw them on the roads after usage," said a sanitation worker who wanted to remain anonymous.

Used mask or gloves might turn out to be one of the biggest potential sources of virus transmission, according to medical experts. As research suggests that live COVID-19 virus particles can live on surface for anywhere between three hours and three days, the least citizens can do is to ensure that these masks are properly disposed of, said MCC officials.

Five Rafale jets join IAF's 'Golden Arrows' Squadron

New Delhi, Sept. 10 (UNI & Agencies)- Five French-made multirole Rafales were inducted this morning into the Indian Air Force's "Golden Arrows" Squadron at the Ambala Air Force Station, the country's oldest Air Force base built in 1919.

A Rafale fighter jet flew above the airbase as Defence Minister Rajnath Singh and his French counterpart Florence Parly watched it from afar. Along with the Rafale, other fighter jets including the Russian-origin Sukhoi-30MKIs participated in the flypast. The first batch of five Rafales is being inducted at a time when India is engaged in an escalating border row with China in eastern Ladakh.

COVID-19 test mandatory for MLAs attending Assembly session from Sept. 21

Bengaluru, Sept.10 (KMS& SSV)- COVID-19 test has been made mandatory for legislators attending the joint session of the State Legislature from Sept. 21, said Assembly Speaker Vishweshwara Hegde Kageri.

Talking to reporters here on Tuesday, the Speaker said the MLAs must undergo test at the Government Hospitals in their respective Assembly Constituencies two days before the commencement of the session and get report from Health Officers.

The certificate must be displayed while entering the Hall. This rule was applicable to everyone including the CM. Already, 41 MLAs have reported Corona positive and some are still under treatment. This has necessitated to take all precautions as specified by the Union Health Ministry for the safe conduct of the session.

For those who failed to undergo test, a Rapid Antigen Test (RAT) will be held at Vidhana Soudha on Sept.18. Even officials and journalists could undergo test and collect the certificate from the doctors to enter the Assembly Hall. This time, only 15 journalists will be allowed inside the Press Gallery and the rest will have to cover the proceedings from the second floor gallery.

As precautionary measure, entry of general public to witness the House in action is strictly banned. Daily health examination will be held before the proceedings start, he added.

Kageri said instruction had been given to all the Ministers not to entertain any delegation or hold meetings on the first floor of Vidhana Soudha. The MLAs must hold such meetings at the Legislators' Home.

The daily testing of MLAs, officials and journalists will be directly monitored by the Speaker.

31 Bills to be tabled: Kageri said as many as 31 Bills including 10 important legislation and 19 ordinances are expected to come up during the session.

The Speaker also welcomed the Government's stern action on drug mafia and stressed on strict measures to save children from becoming drug addicts.

Extend session: Meanwhile, Leader of Opposition in the Assembly and former CM Siddharamaiah has urged the Speaker to extend the session till Oct. 15 in view of important legislations to be tabled by the Government.

Ten days was not sufficient to discuss subjects of public interest like amendment to Land Reforms Act and ordinances.

EDITOR'S BOTTOMLINE

HONESTY AND HARD-WORK: ***This is a two-point formula, honesty makes one a trustworthy person and hard work means that a man is ready to dedicate himself to his work. Hard work refers to physical strength and honesty refers to spiritual strength. Both are equally important and desirable human qualities. Honesty signifies positive and virtuous attributes such as integrity, truthfulness including straightforwardness of conduct along with the absence of lying, cheating, theft, etc. Honesty promotes openness, empowers us, and enables us to develop consistency. Being morally correct can only happen through hard work. The scriptures of major religions mention that honesty and hard work are imperative while serving God. There is a saying that God helps those who help themselves. Helping oneself, in this context, can mean to prove that you have these two natural qualities. Indian Engineer Bharat Ratna Sir Mokshagundam Visvesvaraya has done exemplary work. Even today we honour him and his work. He was honest and hard-working throughout his life, as his family and colleagues would have vouched. Our younger generation should also, like him, strive to achieve success by means of honesty and hard work.*** *— Nazeer Ahmed Kazi in Deccan Herald*

NEWS SPARKLERS

Boy claims to be bitten by same snake 8 times in a month

Rampur: A 17-year-old from Rampur village in Basti district of Uttar Pradesh is allegedly living in fear after being bitten by the same snake a whopping eight times in a single month, which he claims.

The boy, Yashraj Mishra, reportedly lives in constant fear after being targeted by the same snake for reasons that remain unknown. Though his family members took him to the village doctor for treatment and also appealed to snake charmers, but nothing seemed to stop the snake. After he was bitten for the third time, the family even shipped the teen to a relative's home in a neighboring village, but the slithering reptile allegedly tracked him down and bit him again...

Yashraj's last encounter with the snake occurred on Aug. 25, when he was bitten for the eighth time in less than a month. The boy now feels that he is targeted by the snake and is reportedly traumatised.

Teen builds his own functional Batmobile

Hanoi: A young fan of the Dark Knight from Vietnam has spent 10 months and has spent over $20,000 building his own functional Batmobile.

Nguyen Dac Chung, an architecture student from Hanoi had always dreamed of driving his very own Tumbler, the iconic Batmobile showcased in Christopher Nolan's 'The Dark Knight' trilogy and last year he decided to make his dream a reality. He poured 10 months of work and over $21,700 into this project and now has his very own life-size, functional Tumbler. Although it's only 90 percent complete, Nguyen Dac Chung has already been attracting attention on Hanoi's street and has been featured by major Vietnamese news outlets.

The Batmobile is powered by a four-cylinder, 400 cc engine and can reach a top speed of 100 km/h. The suspension system consists of 4 front shock absorbers and 2 rear shock absorbers.

HEALTH CAPSULE by Bron Smith

Is there a good natural remedy for flu?

At the first sign of flu symptoms, take elderberry. In a small study, 93 percent of flu patients were symptom-free within 2 days after taking elderberry. The control group recovered in about 6 days. Elderberry comes in drops, capsules or softgels.

** Health Capsules is not intended to be of a diagnostic nature.*

VOICE OF THE READER

Appeal to MUDA Chairman

Sir,

This has reference to the news item **"MUDA Chairman on inspection-spree"** (*SOM* dated Sept.7). The Chairman's visit centred around inspection of eight sites located in different localities and are in custody of MUDA that have been identified for executing the Affordable Group Housing Scheme that is pending since 2012. A survey was also conducted during 2016 and thousands of people queued up and filed their applications for sites/houses etc.

Before embarking on execution of these pending projects the Chairman will earn the goodwill of the people if he visits the project areas that have already been executed and where people are actually living, for ascertaining their grassroot level basic need-based problems like water supply, roads, drainage and other demands; whether they have all the facilities, amenities and infrastructure as promised by MUDA and address them on a war-footing.

He may also get information on incomplete works/pending community projects etc., in various localities, inspect them and see that they are completed within a time-frame.

MUDA has enough money now due to auction of various vacant plots for meeting this expenditure. People living in MUDA layouts may send details of their problems to the Chairman or MUDA Commissioner for redressal.

The new schemes may also be activated at a later date in view of the existing slump in the real estate market due to COVID pandemic, labour problem, tight money market etc.

Rita Platel

Rita Platel (93), a resident of Rajivnagar, passed away this morning following brief illness. She leaves behind four sons, five daughters and a host of relatives and friends. Funeral took place this evening at Gandhinagar Cemetery.

Set up Plasma Bank in Mysuru: AAP

Malavika Gubbivani

Mysuru, Sept. 10- Malavika Gubbivani, Mysuru District President of Aam Aadmi Party (AAP), has in a press release urged the Deputy Commissioner (DC) to set up a Plasma Bank in city and popularise it among the people.

Expressing concern over the COVID-19 death toll crossing 500 mark in the district, she said even now the Government communication to public is only about using masks, sanitisers, physical distancing and nothing more.

Plasma therapy (treatment) is a simple procedure, similar to blood donation and one plasma donor can save two lives, she said adding that it was a success in Delhi as hundreds of donors saved thousands of lives.

In the month of June when the COVID-19 pandemic was going out of control, Delhi's AAP Government took immediate action by increasing testing, tracing, hospital beds, built a field hospital with 10,100 beds, allowed home isolation for asymptomatic positive patients and home quarantine for primary and secondary contacts. But above all, they immediately established two Plasma Banks, where recently cured patients could donate their plasma full of antibodies to treat serious patients, Malavika observed. Hundreds of volunteers came forward heeding to the call by Delhi CM Arvind Kejriwal and many serious patients in ICU were treated successfully.

Since Plasma Therapy is now accepted worldwide as a reliable treatment for serious patients with co-morbidities, Malavika suggested that in addition to the monetary incentive, the donors should be given priority for one plasma treatment when they or their dear ones require plasma treatment.

At present the Plasma Bank for COVID treatment is at the Mandya Institute of Medical Sciences. When the District Administration itself is advising people to restrict their movements and stay at home, who would want to go all the way to Mandya for Plasma donation? she asked and urged the Deputy Commissioner to set up a Plasma Bank in Mysuru itself.

Medical Education Minister seeks clinical study of COVID reinfection

Bengaluru, Sept.10- Medical Education Minister Dr. K. Sudhakar has instructed officials to conduct a clinical study on Corona relapse cases in the State.

Speaking at a meeting with Task Force officials regarding COVID-19, he said a 27-year-old woman has developed the disease for a second time at a private hospital in city. This was not happening for the first time as several other countries have reported such cases.

Expressing concern about relapse in Bengaluru, he said the incident should be dealt carefully in order to drive away the fear from the minds of people.

An official said, when a person recovers from COVID-19, it will take at least 15 days to produce white blood cells. This might lead to reinfection in some patients. However, this cannot be considered as definite reason for the reinfection, he added.

Responding to this, Dr. Sudhakar sought clarity over Coronavirus reinfection and directed officials concerned to submit a report regarding the treatment of such cases in other States.

Forest Department begins selection process of Dasara elephants

Mysuru, Sept. 10 (MTY&KS)- Following the decision taken by the State Government to celebrate Dasara in a simple manner without much fanfare this year and limiting the *Jumboo Savari* only to the Palace premises, the Forest Department has begun the process of selecting the elephants to participate in this year's Dasara festivities.

Usually, the process of selecting elephants for Dasara takes place in the month of July every year and the first batch of Dasara elephants, comprising Golden Howdah-carrying elephant, one standby male elephant, two female elephants and two male elephants to be trained to carry the Golden Howdah in future, used to arrive in city before Aug. 15.

After the arrival of Dasara elephants, their weights would be checked and would be put on nutritional diet besides commencing the training to familiarise them the *Jumboo Savari* route and also to make them get used to the crowd and noise, which was being witnessed by hundreds of people. But this year, the public are a disappointed lot as the training and the final rehearsal will be held in the Palace premises.

After the State Government decided a simple Dasara this year, the Forest Department has begun the selection of five elephants for this year's Dasara and a team of Forest officials, yesterday visited various elephant camps and inspected the elephants.

As the entire responsibility of Dasara elephants is bestowed on the Forest Department (Wildlife), Mysuru, the officials comprising Deputy Conservator of Forests (DCF) Alexander, Naragahole Tiger Reserve Veterinarian Dr. Mujeeb and others visited Mathigodu, Anekadu and Dubare Elephant Camps and inspected the elephants besides checking their health conditions.

Speaking to *Star of Mysore*, DCF Alexander said that yesterday, five elephant camps were visited and the health conditions of five elephants were examined. He further said that all the five elephants were healthy and were fit to participate in the Dasara festivities.

Continuing, the DCF said that two more elephant camps would be visited today, health conditions of elephants would be checked and a list would be prepared. The final list of elephants participating in this year's Dasara festivities would be decided at the meeting to be held in the next two days, DCF Alexander added.

DCF Alexander with elephant Abhimanyu at Mathigodu Camp.

Abhimanyu may replace Arjuna

As the experienced and senior elephant Arjuna, which had the responsibility of carrying the whooping 750-kg Golden Howdah during *Jumboo Savari* several times, has crossed 60 years of age, Arjuna cannot be given the task of carrying the Golden Howdah as per the Supreme Court directive. Hence, the Forest Department authorities have decided to replace Arjuna with 53-year-old Abhimanyu, who is well-known as the 'Combing Specialist.'

The Forest officials, who visited Mathigodu Elephant Camp where Abhimanyu is housed, checked his health and also observed his behaviour to ascertain whether he was in musth. The officials later visited Anekadu Camp and inspected *Pattada Aane* Vikram and *Kumki* elephant Vijaya, Gopi and another *Kumki* elephant Kaveri at Dubare Elephant Camp.

The Forest officials will be visiting Rampura Elephant Camp at Bandipur Reserve Forest where Arjuna and other elephants are housed and would check their health conditions later in the day.

'Pattada Aane' Vikram and 'Kumki' elephant Vijaya at Anekadu Camp.

Gopi and 'Kumki' elephant Kaveri at Dubare Elephant Camp.

MUDA clears encroachment, reclaims Rs. 2 crore worth sites

Mysuru, Sept. 10 (MK&KS)- The Mysuru Urban Development Authority (MUDA) officials, on Monday, have cleared the encroachment on their sites and have reclaimed their properties worth about Rs. 2 crore from the encroachers.

Following instructions from MUDA Commissioner Dr. D.B. Natesh, MUDA officials, armed with the order, reached the encroached sites and found that a lorry transport office was constructed illegally after creating fake document of the two sites bearing numbers 386 and 400/B at Bannimantap 'B' Layout belonging to MUDA. The officials demolished the building with the help of an earth-mover, reclaimed the sties and installed a board.

MUDA Zonal Officer Narendra Babu, Assistant Engineer Mani and others took part in the demolishing and reclaiming operation.

Dasara Executive Committee

meeting at Palace Board Office on Sept. 12

Mysuru, Sept.10 (RK&SSV)- The first Executive Committee meeting of Dasara-2020 under the Chairmanship of District Minister S.T. Somashekar will be held at the Office of Mysore Palace Board on Sept. 12 (Saturday) at 4 pm to prepare the roadmap for Dasara celebrations.

The meeting will deliberate on the preparations for Nada Habba in the wake of the Dasara High Power Committee led by Chief Minister B.S. Yediyurappa deciding to celebrate the festivities in a simple manner. Local elected representatives and district officials will attend the meeting to give suggestions.

Some of the issues which are likely to come up for discussion are: selection of five members from among Doctors, Nurses, Pourakarmikas, Police and ASHA workers to inaugurate the Dasara festivities atop the Chamundi Hill on Oct. 17, modalities to welcome five Dasara elephants to the Palace, rehearsal within the Palace premises and programmes at Palace on all days and other important matters.

The meeting will be attended by Mayor Tasneem, MP Pratap Simha, all MLAs, MLCs, Deputy Commissioner B. Sharat, ZP President Parimala Shyam, Police Commissioner Dr. Chandragupta, MCC Commissioner Gurudatta Hegde, MUDA Chairman H.V. Rajeev, MUDA Commissioner Dr. D.B. Nagesh, Superintendent of Police C.B.Ryshyanth and other officials of various Departments.

Preliminary meeting held

Meanwhile, the DC held a preliminary meeting yesterday ahead of the Executive Committee meeting and discussed with district officials regarding the decisions taken at the High Power Committee meeting held in Bengaluru on Tuesday. Discussions were held regarding refurbishing the Palace premises and Chamundeshwari Temple premises ahead of the festival, welcoming Dasara jumbos, facilities to be given to mahouts and arrangements for rehearsal of the elephants. The outcome of the meeting conveyed by the DC will be placed at the Executive Committee meeting on Saturday.

Spot inspection

A team of officials from Departments of Religious Endowment, Forest, Kannada and Culture, Police, Palace Security, Palace Board and others led by Additional Deputy Commissioner (ADC) Manjunathaswamy visited the Palace to take stock of the security arrangements. The ADC has collected all the details to prepare a blue print for the procession to be held on Vijayadashami Day (Oct.26).

Dr. C.N. Manjunath to inaugurate Dasara?

The name of Dr. C.N. Manjunath, Director, Sri Jayadeva Institute of Cardiovascular Sciences and Research, Bengaluru, is making rounds as a nominee from the doctors' fraternity as one of the inaugurators of Dasara.

District Minister S.T. Somashekar, MLAs G.T. Devegowda and L.Nagendra, Mysuru-Kodagu MP Pratap Simha, MLC A.H.Vishwanath and others are learnt to have recommended Dr. Manjunath's name due to his contribution to check the Coronavirus pandemic as head of COVID-19 Task Force constituted by the State Government.

Dr.Manjunath, a well-known Cardiologist, is offering services to poor people at the Institute.

Permanent Dasara Authority

MLA G.T. Devegowda (GTD) has sought for a permanent Mysuru Dasara Authority to hold the world-famous Dasara festival in a meaningful manner.

The Authority will ensure keeping the city abuzz with cultural activities throughout the year and help in promotion of tourism. It was not a good idea to hold the Dasara meeting in a hurry and decide everything at the eleventh hour, he opined.

In fact, this proposal has been pending for the last two decades and no Government has bothered to take a bold step to constitute the Dasara Authority. GTD hoped that at least the present Government should come forward to constitute the permanent Mysuru Dasara Authority for the smooth conduct of the annual festival that is witnessed by lakhs of people.

CM to virtually lay foundation stone for Vishnu Memorial on Sept. 15

Memorial becoming a reality after seven years of struggle; no large gathering due to COVID-19 pandemic

Chief Minister B.S. Yediyurappa seen in discussion with Dr. Bharathi Vishnuvardhan and her son-in-law Anirudh in Bengaluru yesterday.

Dr. Vishnuvardhan

Mysuru, Sept. 10 (RKB&BCT)- The foundation stone for the construction of a befitting memorial for late actor "Sahasa Simha" Dr. Vishnuvardhan will virtually be laid by Chief Minister B.S. Yediyurappa on Sept. 15 from Bengaluru. The physical ceremony or the Bhoomi Puja will be held at Halalu village, Kasaba Hobli near Udbur on Manandawadi Road where the State Government has sanctioned 6.5 acres of land.

On that day, the CM will lay the foundation stone online from Bengaluru due to COVID-19 pandemic. Invitation for the event has already been extended to the CM who has consented. Vishnuvardhan's birthday falls on Sept. 18 and the family has decided to perform the Bhoomi Puja on Sept. 15.

"Due to contagion, we have not invited many people and only select personalities have been invited," Dr. Bharathi Vishnuvardhan, the late actor's wife told *Star of Mysore*. Vishnuvardhan is a part of the triumvirate of Kannada cinema along with Dr. Rajkumar and Ambarish. The actor died on Dec. 30, 2009 and Mysuru is his native.

The construction works will be taken up by Dr. Vishnuvardhan Pratishtana Trust. The State Government has sanctioned the land on Survey Number 8 near Udbur Gate way back in 2017 but the land was caught in legal tangles as they were many claimants for ownership. Finally all hurdles were cleared by the Revenue Department and Court of law, much to the relief of fans. The cries for a memorial for the late actor had been going on for a long time.

Already, a compound wall has been constructed in the land around the place where the memorial will be built and a borewell has been sunk for water source, Bharathi added. "I appeal to the fans of Vishnuvardhan not to come to the venue but to celebrate the day at their homes. While celebrating, please maintain social distancing and take all precautions so that the virus does not spread," she appealed.

The memorial will be built at a cost of Rs.11 crore and the memorial — statue — itself will be 16 feet in height. A Dhyana Mandir and a Yoga Kendra will be a part of the memorial complex. It would also have a museum to showcase articles used by the actor. A training institute for upcoming artistes will be set up and the memorial will have a centre just like the Film and Television Institute of India, Pune and there will be a dedicated space that will be a platform to train the next generation, Dr. Bharathi explained.

She said that a detailed plan of action has been chalked out and a blueprint has been prepared on the contents, display and sections of the memorial. "It will be completely about the film industry and will be of use for everyone. People and Vishnu's fans can relive his memory at the memorial. Dr. Vishnuvardhan's fans are already elated about the memorial construction that has been realised after seven years of struggle," she said.

Cinema theatres to open from Oct. 1?

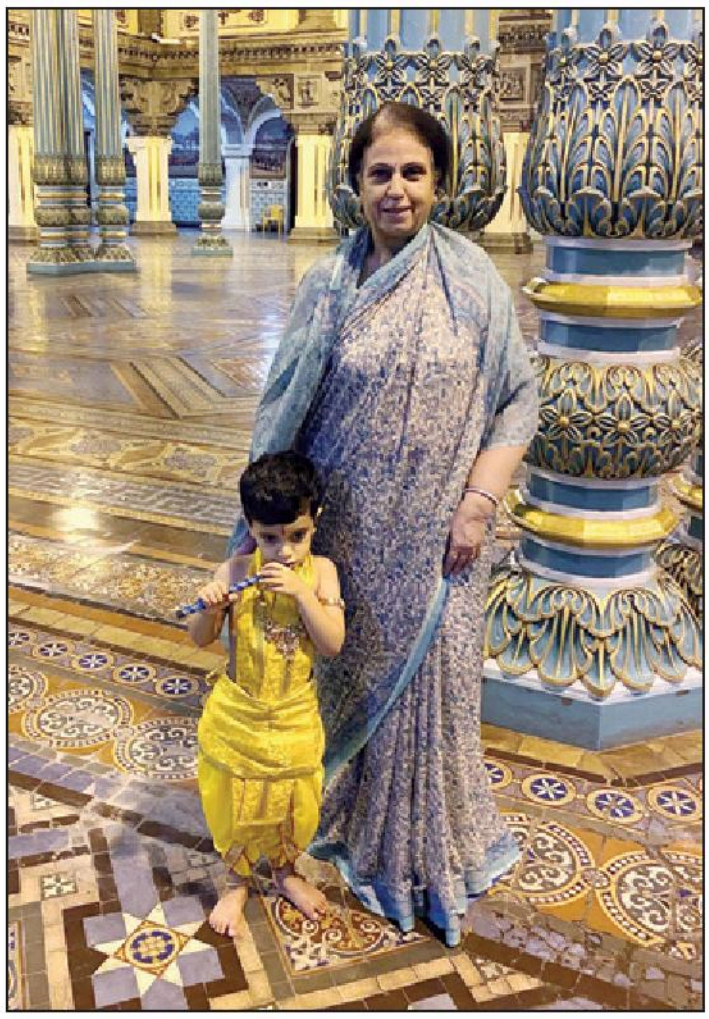
New Delhi, Sept. 10 (OSR)- The cinema halls will likely open across the country from Oct. 1. To this end, the All India Cine Industry leaders held talks with the Union Home Secretary and Information Secretary yesterday.

Representatives of the film industry have sought permission to open theatres in the wake of permission being given for trains, metro services and flights to operate. Sources said that the Centre is preparing guidelines on the opening of cinema theatres.

Sources say that even if theatres reopen, big-budget films will not immediately hit the screens and the producers are planning to wait for a month to gauge the trend. The film industry is among the worst hit by Coronavirus. Movie theatres have been closed for more than five months due to a Government-imposed lockdown to curb the virus spread.

STAR PUNCH By Satish Acharya

Little Prince becomes Krishna



Mannar Krishna Jayanti was celebrated at Mysore Palace this morning where little prince Aadyaveer Narasimharaja Wadiyar, the son of Yaduveer Krishnadatta Chamaraja Wadiyar and Trishikha Kumari Wadiyar, was dressed as Krishna. The little one, holding a flute, is seen posing for a photograph with his grandmother Pramoda Devi Wadiyar inside the Palace. Picture right shows Aadyaveer feeding bananas to a cow as part of the celebrations. The photos have been posted on social media by Yaduveer.

Unidentified man commits suicide

Mysuru, Sept. 10 (RK&KS)- An unidentified man, aged between 35 and 40 years, has committed suicide by hanging self to a tree at the Chamundi Hill forest area in city. The kith and kin of the deceased, if any, may contact K.R. Police Station on Ph: 0821-2418319 or call Police Control Room on Ph: 0821-2418339, according to a press release.

Chamaraja MLA asks officials to expedite pending works

Mysuru, Sept. 10 (RK&KS)- Chamaraja MLA L. Nagendra conducted an inspection of the Rs. 6.4 crore road widening and development works of the 3.15 km stretch, 80 ft. road (double road) from MLA G.T. Devegowda's house on new Kalidasa Road up to Hebbal Ring Road junction this morning.

Later he asked the officials of various Departments to complete the pending works at the earliest.

The works are taken up by Mysuru Urban Development Authority (MUDA).

During his inspection, MLA Nagendra saw that only 25% of the works completed with many works pending. There are Underground Drainage (UGD) pipes, drinking water pipes, power cables and telephone cables passing under this stretch of road and due to lack of co-ordination between various Departments, the works were going on at a snail's pace.

The MLA immediately convened a meeting of officials from various Departments such as CESC, VVWW, BSNL, Karnataka Urban Water Supply and Drainage Board (KUWS&DB), MUDA, Mysuru City Corporation and other Departments near Vijayanagar Water Tank and instructed them to complete the pending works within four months.

MUDA Superintending Engineer Shankar, Assistant Executive Engineer Suvarna, MCC Zonal Officer Veeresh, Development Officer Manu Gowda, Executive Engineer (UGD) Srinivas, KUWS&DB Executive Engineer Prasanna Murthy, CESC Assistant Executive Engineer Hemalatha and other officials accompanied the MLA during his inspection.

Discarded surgical masks

(Continued from page 1)

"People moving on bikes and travelling in cars or trucks slow down their vehicles near the garbage bins and throw the masks thinking that they will fall in the bins. But they don't understand that the lightweight masks fly off instead of falling in the bins," said another sanitation worker.

When the rule of wearing masks outside homes was made mandatory, on an average, Pourakarmikas would find 50 to 100 discarded masks at any particular area. "These were use-and-throw masks and now as reusable cloth masks are available, people are using them after washing. Now, on an average, our Pourakarmikas collect over 15 to 20 discarded masks in a spot. Still this is risky and we have asked our ground staff to take all precautions while handling such discarded masks. They pick them up with gloves on hand," MCC Health Officer Dr. D.G. Nagaraj told *SOM*.

He added that some clinics and hospitals were found irresponsibly discarding such masks and gloves.

"We have caught them red-handed discarding masks, warned them and even issued notices. Now the menace has reduced," he said. As per the provisions of Karnataka Municipal Act, the MCC can impose a fine of Rs. 500 to Rs. 1,000 for irresponsibly discarding masks and gloves. "We will take strict action against such people and will not hesitate to impose fine," he added.

Five Rafale jets join IAF

(Continued from page 1)

"New bird in the arsenal of IAF," the Air Force tweeted this morning. Chief of Defence Staff General Bipin Rawat and Air Chief Marshal R.K.S. Bhadauria were among the dignitaries who attended the ceremony.

"Today, this induction sends a strong message to those who have raised an eye at us. This induction is very crucial, considering the border situation," Defence Minister Rajnath Singh said at the ceremonial unveiling of the Rafale aircraft that saw a traditional Sarva Dharma Puja, air display by Rafale and Tejas aircraft as well as by the Sarang aerobatic team.

A traditional water cannon salute was given to the Rafale fleet before its ceremonial induction into the 17 Squadron. The Rafale jets, built by French aerospace major Dassault Aviation, are known for air-superiority and precision strikes on ground targets, making them truly multirole jets.

First batch of five Rafale jets arrived in India on July 29, nearly four years after India signed an agreement with France to buy 36 jets for Rs. 59,000 crore.

Readership takes a beating as public libraries yet to open

Most affected are competitive exam aspirants

Employees seen carrying out routine work at City Central Library on Sayyaji Rao Road this morning.

Mysuru, Sept. 10 (PM&BCT)- As we emerge from the lockdown, the economic hiatus due to the pandemic has begun to show its results.

The printing and publication industry had to go into a forced shut down as the COVID-19 pandemic had people shunning from buying hard copies of newspapers, books, magazines and journals. First hit by the digital boom of e-books and now due to the pandemic, reading and lending libraries in city have been struggling for survival. Yet they have not opened their doors to the public.

As a result, the books neatly arranged in the racks are gathering dust. Despite several unlock measures that have been taken up by both the State and Central Governments, the libraries still remain shut forcing people to read up whatever available at their homes or in World-Wide-Web or what we call the internet.

Hit hard by lack of availability of books is the young crowd who have to prepare for competitive exams. There are over 7,239 libraries under the Department of Libraries and they are awaiting an official order from the Government. While the doors are shut for visitors, only the library employees are permitted inside to carry out their routine works. Libraries are closed since Mar. 22.

Readership subscriptions have definitely been affected as most people have refrained from buying copies in the last four to five months. "It is worse even now as we cannot access the books via libraries as they are closed. It is very difficult to get information outside the realm of libraries for competitive exams," said Suchitra, who is preparing for administrative service exams.

"Not all information available in the internet is authentic and we cannot depend on them. Books and journals give us the right information and sadly, all of them have been locked up inside the libraries," she rued.

There are many competitive exams lined up in the coming months like IAS, KAS, Panchayat Development Officers and teachers' recruitment. Candidates preparing for these exams are severely disadvantaged as the libraries are closed. In Mysuru, there are over 278 libraries that come under the Department and readers feel that the libraries must open after following strict social distancing norms.

"The COVID-19 impact is affecting and will affect book and library industry. Books are never treated as essential items, which they should be, during the lockdown to engage people while they are at home. Now that the Government has relaxed rules and allowed metros and trains to operate, it must allow the libraries to open too," said Nitish, a regular visitor to libraries, who is stuck at home now.

There are over 57,030 members in City Central Library and it has 18 branch libraries, 13 Seva Kendra libraries, and over 7 reading rooms. In the Mysuru District Library, there are 71,256 members in over 252 libraries.

SSLC students emerge

School toppers after revaluation

Dayan *Nihal*

Mysuru, Sept. 10- Dayan and Nihal Prakash, students of Sadvidya High School, have emerged School toppers and secured State 5th Rank in the SSLC exam after revaluation.

While Dayan, who got 614 marks out of 625 in the results announced earlier, secured seven more marks making his total 621, Nihal, who was given 617, secured four more marks in the revaluation and now, total marks secured is 621/625 (99.36%).

FASTag
Easy to Cruise

compulsory for all

four-wheelers from Jan. 1

New Delhi, Sept. 10- In a significant move amid the COVID-19 crisis, the Union Ministry of Road Transport has decided to make Fastag compulsory for all four-wheelers across the country with effect from Jan. 1, 2021.

Earlier, Fastag was mandatory for four-wheelers manufactured since 2017. But now, the Ministry has decided to make it compulsory for all four-wheelers, not withstanding their year of manufacture. The Ministry will bring in necessary amendments to the Motor Vehicles Act (IMV Act) for implementing the same.

The Union Government with a view to prevent traffic congestion at Toll points on Highways and to encourage digital transactions, had introduced Fastag policy sometime ago.

Early morning chain-snatching

Elderly man relieved of 20 grams gold chain at Bannimantap

Mysuru, Sept. 10 (RK&KS)- Chain-snatchers, who usually target elderly lonely women, targeted an elderly man, who was watering the garden and snatched his gold chain at Bannimantap early this morning.

The victim is 70-year-old Tukaram, a retired KSRTC employee and a resident of Bannimantap 'C' Layout, near Bhuvaneshwari Kalyana Mantap.

Tukaram, who had grown flower plants in front of his house, was plucking the flowers after watering the garden at about 6 am, when a miscreant, who came on foot, snatched his gold chain weighing 20 grams and fled from the spot. Narasimharaja (NR) Inspector Shekar and staff, who rushed to the spot, conducted mahazar, registered a case and are investigating.

MP asks DC not to spend Central Funds on development of circles, graveyards

Pratap Simha

Mysuru, Sept. 10 (PM)- Mysuru-Kodagu MP Pratap Simha has urged the Mysuru District Administration not to spend the Central Funds to develop circles and graveyards.

In a letter to the Deputy Commissioner, the MP has asked the district revenue head to utilise Rs. 69.39 crore funds allotted to the Mysuru City Corporation (MCC) under the 15th Finance Scheme only on most important works. As per norms, 25 percent of the funds could be utilised on the Solid Waste Management units and 25 percent on drinking water schemes.

Accordingly, the funds should be utilised on Solid Waste Management units at Vidyaranyapuram, Rayanakere and Kesare; and for ongoing works of Megalapura and Hongalli water treatment plants.

Simha said that the remaining funds and the accrued Rs. 9.30 crore of the 14th Finance Scheme should be spent on other works after consulting the District Minister, MPs, MLAs and Corporators.

Apart from this, the Central Funds should not be wasted by spending it on upkeep of circles and graveyards.

Hitherto, Mayor, Deputy Mayor, Works Committee Members, former Mayors and party leaders were taking a lion's share in the Central Funds through 'adjustment' politics. This kind of illegal adjustment should be ended, he added.

Decoding Mythology

Dr. Devdutt Pattanaik - Author, Speaker, Illustrator, Mythologist

Was Harappa a Jain Civilisation?

The Harappan civilisation thrived in the Indus Valley 4,500 years ago, roughly around the time the pyramids were being built in Egypt. It is famous for its grid-like cities. Here, we find a seal of a man sitting in a yogic position, surrounded by wild animals. People have identified him as proto-Shiva and call it the Pashupati seal: Shiva's form surrounded by wild animals. But, in the Vedas, Pashupati is linked to domestic animals, not wild animals. So, is this Shiva? Or someone else. Few point to the possibility that this could be a Jain image of a Jina, conqueror of all passions.

Jain mythology comes to us from manuscripts that are 1,500 years old. Yet, they speak of an ancient time 84,000 years ago. These are fantastic timelines and they suggest that Jain thought was very old, some claim older than Ramayana and Mahabharata. The great Jain teachers were called Jinas or Tirthankaras. Each one was associated with an animal symbol. What is interesting is that four of the five animals on the Pashupati seal can be linked to these teachers. The goat with Kunthunath, rhinoceros with Shreyasnath, the elephant with Ajithnath and water buffalo with Vasupujyanath. Some argue it's not a goat, but a deer. In that case, it would be symbol of Shantinath not Kunthunath. The fifth animal tiger is an odd one out. Mahavira is linked to lion, not tiger.

The zebu or humped bull, found in other Harappan seals, is linked to Rishabhnath. Images of a swastika and the knot known as Srivatsa, found on seals, are all associated with Tirthankaras. The lion and horse are found in Vedic scriptures, and in Jain list of symbols for Tirthankars, but not in Harappan seals.

Not all Harappans would have been Jain, for we know that people ate fish and meat of cattle, pigs, fowls and wild animals. The cities would have had diverse faiths, but clearly some would have practised some form of proto-Jainism.

We know that the Harappan cities were cities of traders who manufactured beads. These beads were sold in Mesopotamia. We also know there was a trading colony of Harappans who lived in Mesopotamia. They exported beads and sesame, as well as chicken and dogs, they imported metal, woollen cloth and bitumen. Most Jain followers are traders as it keeps them away from the violence associated with agriculture, mining and herding occupations.

Jains are known for their sense of hygiene and purity, also found in Harappan cities with water tanks and a very sophisticated drainage system. Harappan seals are found in Mesopotamia, but no Mesopotamian seals are found in Harappa. Mesopotamia was famous for its cuneiform script, which had no impact on the Harappan writing. All this suggest that the Harappan civilisation preferred isolation, very similar to Jains, who isolate themselves with strict food habits. All these go in favour of Harappa having Jain influence. There is no way to prove or disprove this. This is a great conversation over tea.

Government issues SOP for partial re-opening of Schools

- Classes 9 to 12 may start on voluntary basis from Sept. 21
- Students who attend need written permission from parents

New Delhi, Sept. 10- As part of phase-wise unlocking activities in the context of COVID-19, the Ministry of Health and Family Welfare has issued guidelines (Standard Operating Procedure - SOP) for re-opening of Schools for students of Classes 9 to 12 on voluntary basis from Sept. 21.

All Schools must have thermal guns at the gates to check temperature of teachers and students. Before opening, Schools should completely sanitise the classrooms and ensure availability of 1% hypochlorite solutions, alcohol wipes and sanitisers. Schools that were turned into quarantine centres should ensure deep cleaning of premises.

Schools will function at 50% capacity and online classes will continue. Students of Classes 9 to 12 have the option of attending classes virtually or physically. A student will need written permission from parents to attend School.

The Ministry has suggested that rather than closed classrooms, Schools should utilise open spaces outdoors for student-teacher interaction if weather permits. Mess and canteens inside Schools would remain closed. There will be no assembly, sports or events which could lead to overcrowding.

Masks will be mandatory at all times for students, teachers and non-teaching staff. Frequently touched surfaces like door knobs, elevator buttons, hand rails, chairs, benches, washroom fixtures should be cleaned with hypochlorite solution. Teaching materials, computers, laptops, printers must be disinfected.

Deep cleaning of all drinking and hand washing stations, washrooms and lavatories would be ensured. Students and teachers would be asked to dispose of used face covers and masks in separate covered bins placed in classrooms and common areas. These would remain stored for three days in the bins and then disposed of as dry general solid waste after shredding. Schools cannot involve students in cleaning activities.

SOP at the entry point

• Entrance to have hand hygiene (sanitiser dispenser) and thermal screening provisions.

• Multiple gates/separate gates, if feasible, should be used for entry and exit.

• Only asymptomatic persons (teachers, employees and students) to be allowed inside.

• If a teacher/employee/student is found to be symptomatic, he/she should be referred to nearest health centre.

• Posters/standees on preventive measures about COVID-19 to be displayed prominently.

• Proper crowd management in the parking lots, in corridors and in elevators — duly following physical distancing norms shall be organised.

• Entry of visitors should be strictly regulated/ restricted.

Planning of activities

• All employees who are at higher risk, that is, older employees, pregnant employees and employees who have underlying medical conditions to take extra precautions. They should preferably not be exposed to any front-line work requiring direct contact with the students.

• iGOT online modules training course on 'basic awareness on COVID' may be undertaken by all employee and students during online interactions or guidance sessions on first day.

Additional Protocol

• Schools should display State Helpline numbers and also numbers of local health authorities etc., for teachers /students / employees to contact in case of any emergency.

• For air-conditioning/ventilation, the guidelines of CPWD shall be followed which emphasises that the temperature setting of all air-conditioning devices should be in the range of 24-30 degrees C, relative humidity should be in the range of 40-70%, intake of fresh air should be as much as possible and cross ventilation should be adequate.

• Lockers of students will remain in use, as long as physical distancing and regular disinfection is maintained.

• Gymnasiums shall follow MoHFW guidelines.

• Swimming Pool (wherever applicable) shall remain closed.

Book Publisher D.N. Lokappa feted

Mysuru, Sept. 10- Marking the birth anniversary of renowned writer Poornachandra Tejaswi, members of Anikethana Seva Trust on Tuesday felicitated D.N. Lokappa of Samvahana Prakashana on his recent nomination as Kannada Book Selection Committee Member.

Speaking on the occasion, Trust President K.V. Mallesh said, Lokappa has published thousands of books written by senior and junior writers through his Samvahana Publishing House.

Continuing he said Samvahana has published notable works of well-known authors like Rashtrakavi Dr. G.S. Shivarudrappa, Channaveera Kanavi, Dr. M. Chidananda Murthy, G.S. Siddalingaiah, K.C. Shivappa and Dr. B.V. Venkatachala Shastri.

The books published by Lokappa's Samvahana Prakashana have won numerous State-level awards, he added.

Writer Prof. Maleyuru Guruswamy, District Sharana Sahitya Parishat President M. Chandrashekhar, Vice-President of Veera Vanite Rani Chennamma Swayam Seva Sangha A.P. Virupaksha, artist Rangu Sandesh and others were present.

Teachers' Day: Winners of Painting Contest

Swara Nabha, 8th standard student of Pushkarini Vidyalaya (1st prize), M.C. Bharghavi, 10th standard student of CKC Convent (2nd prize), Mohan, 10th standard student of Government Primary School, Naganahalli (3rd prize), who won prizes in the Teachers' Day Painting Competition organised by Brahmibhutha Sri Vasudeva Maharaja Foundation, were given cash prizes and certificates at a function held in city recently. The prize-winning students are seen with *(from left)* ***SOM Cartoonist and Fulbrighter M.V. Nagendra Babu, function Coordinator N. Ananth Dixit, former President of District Kannada Sahitya Parishat Maddikere Gopal, social worker Dr. K. Raghuram Vajpayee and Industrialist M.N. Doreswamy.***

ROTARY MYSORE BRINDAVAN & ROTARY BRINDAVAN SCHOOL: ***Padma Murthy, a retired teacher, was felicitated by Rotary Mysore Brindavan & Rotary Brindavan School on the occasion of Teachers' Day. Seen are*** *(from left)* ***Assistant Head Master Vinod, Club Hon. Secretary Rtn. K.V. Manjunath, President Rtn. PHF A.G. Nanjappaswamy, Rotary Brindavan School Chairman Rtn. PHF K.S. Raghavendra, Treasurer Rtn. PHF M.B. Vijayakumar and Head Mistress Usha.***

MMK&SDM GIRLS PU COLLEGE: The College celebrated Teachers' Day on Sept. 5. Due to COVID-19 precautionary measures, this year's function was simple with the presence of the in-charge PU Principal Nayanakumari and Degree College Principal Prof. Sainath Malligemadu along with the teachers.

PRAGATHI ELITE PUBLIC SCHOOL: Pragathi Institutions celebrated Teachers' Day on Sept. 5 in the presence of Dr. Gururaj Yeri, retired Principal of Sarada Vilas College, Mysuru, as the chief guest.

Speaking on the occasion, he said: "A person moulds his life only through doing good deeds and a teacher should have a feeling of family environment in school for successful teaching."

Teachers of Pragathi Institutions Mangala B. Kari, V. Sreedhara, K.K. Mamatha, Madhubala and Ramyashree shared their experiences.

Institution Secretary Karthik V. Kashyap welcomed. Principal N. Sreevathsa proposed a vote of thanks.

Chairman V. Venkatesh, Managing Trustee Jayashree Venkatesh and Head Mistress Kausalya Shivakumar shared their thoughts on Teachers' Day which marks the birth anniversary of Dr. Sarvepalli Radhakrishnan, the second President of India.

As a token of respect, mementoes were given to teaching and non-teaching staff. Cultural programmes were given by teachers. Students of Pragathi Institutions uploaded their teachers' photos on social media and showed respect to them.

KODAGU MODEL SCHOOL: ***Kodagu Model School, Vidyashankara Layout, Mysuru, observed Teachers' Day as 'Black Day' to highlight the problems they have been facing since COVID-19 outbreak. Teachers wore black wrist band to register their protest and demand Government's intervention in resolving their grievances.***

WORD OF THE DAY

Hoise

Pronunciation: HOYZ.
Meaning: Lift, raise; especially: to raise into position by or as if by means of tackle.
Origin: The connection between hoise and hoist is a bit confusing. The two words are essentially synonymous variants, but hoist is far more common; hoise and its inflected forms hoised and hoising are infrequently used. But a variant of its past participle shows up fairly frequently as part of a set expression. And now, here's the confusing part: that variant past participle is hoist! The expression is "hoist with (or by) one's own petard," which means "victimized or hurt by one's own scheme." This oft-heard phrase owes its popularity to William Shakespeare's Hamlet in which the titular character says, "For 'tis the sport to have the engineer hoist with his own petar[d]." (A petard is a medieval explosive. The quote implies that the engineer—the person who sets the explosive device—is blown into the air by the explosion of his own device.).
Example: "The closest Brennan has come to hoising the AHL's holy grail has been the conference finals on a couple of occasions, most recently with the Toronto Marlies." —Dave Isaac

THE ODD WORD

Habiliment

Attire.

PHRASE OF THE DAY

Hard pill to swallow

Meaning: If a person receives news that is difficult to accept, they might say "that is a hard pill to swallow."
Origin: A long time ago, it looks like this phrase was simply said as "a pill to swallow." Then later, the adjectives "hard" and "bitter" were added to it.
Well, the oldest version of the expression that was found does not have any adjectives in it. For example, in the 17th century, an English poet named John Dryden wrote the expression in a work of his called Essay of Dramatic Peosy, 1668:..."We cannot read a verse of Cleveland's without making a face at it, as if every word were a Pill to swallow: he gives us many times a hard Nut to break our Teeth, without a Kernal for our pains."
Sometime later, the word "bitter" was added to the phrase. The earliest example I could find is from a French historian named Rapin Thoyras. In one of his written works from 1736, it reads:
"This event, which happened the 7th of September, N.S. was immediately follow'd by the relieving of time after, with the total expulsion of the French out of all Italy; a bitter pill to swallow."

QUOTE BOX

All of us do not have equal talent. But, all of us have an equal opportunity to develop our talents. **— Dr. A P J Abdul Kalam**

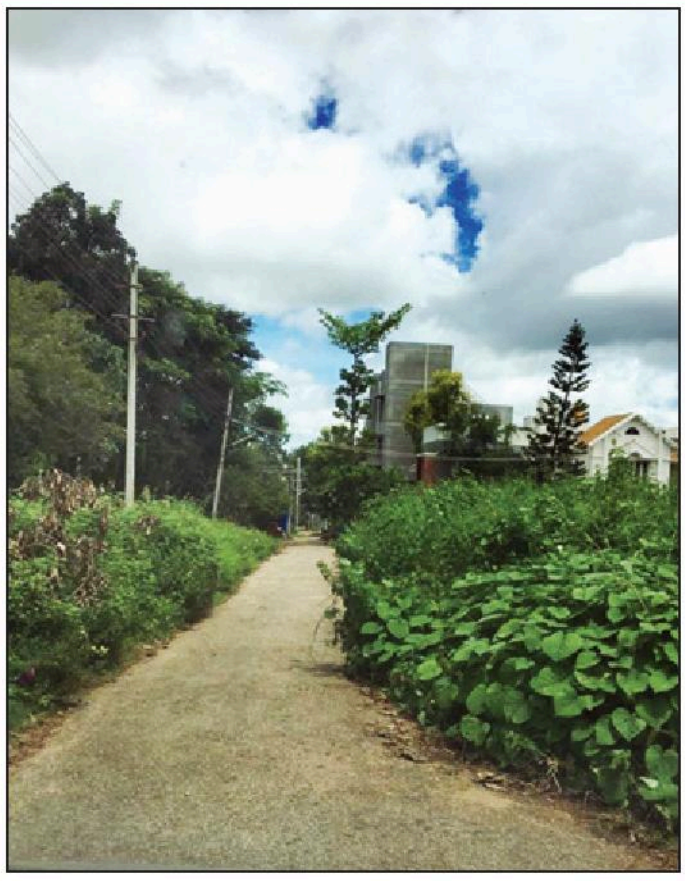
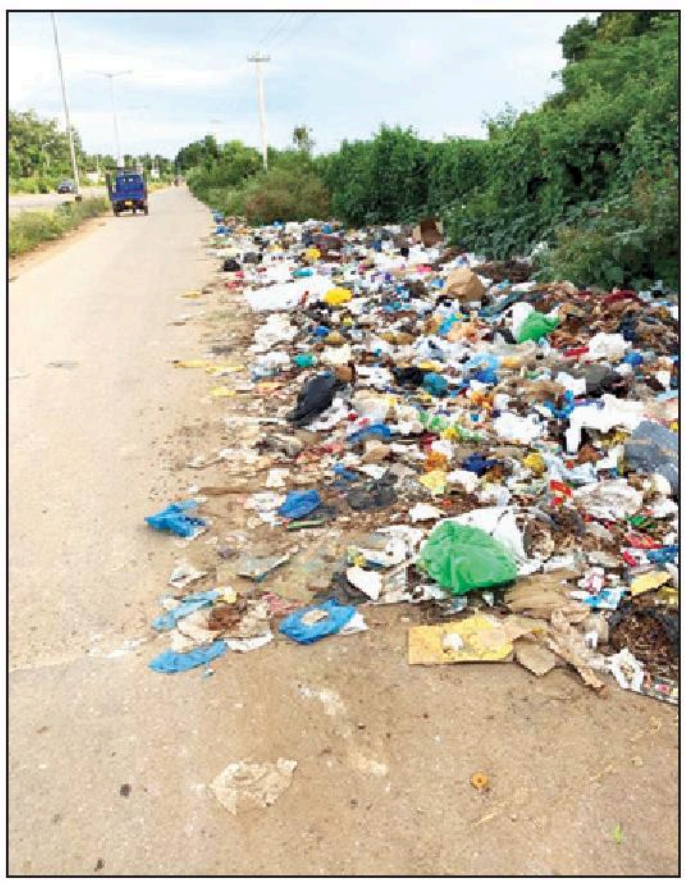
Plea to clear wild growth of weeds at Vijayanagar



Wild growth of weeds on the sides of the 8th Main Road behind Raghulal Health Mart in Vijayanagar 1st Stage needs to be cleared. This is causing a lot of problems to the residents living in the surroundings as snakes, rodents and insects have made the wild growth of weed their home and sometimes enter residences causing panic. The residents have urged the authorities concerned to take steps to get the weeds cleared at the earliest.

Garbage dumped on Service Road in Bogadi needs to be cleared



Household and other garbage being dumped on the side of the Service Road near Bank Employees Colony in Bogadi is causing a lot of problems to motorists and the public as they are forced to cover their nose while crossing the road due to the stench emanating from it. The situation worsens when it rains as the garbage flows into the drains and choke them. The public have urged the authorities concerned to take steps to get the garbage cleared at the earliest.

Olympic-bound boxer Vikas Krishan gets SAI nod to train in US

New Delhi, Sept. 10- Olympic-bound boxer Vikas Krishan has got the Sports Authority of India's (SAI) approval to train in the USA, where he also plans to resume his career in the professional circuit.

SAI has approved his training in the US till November 30 and also sanctioned Rs. 17.5 lakh for the stint. Vikas, who competes in 69kg category currently, is an Asian and Commonwealth Games gold-medallist.

"Tokyo Olympics quota winner and boxer Vikas Krishan's request to train in the United States as part of his preparations for Olympics has been approved by the Sports Authority of India," the SAI said in a statement.

"Vikas, who is a part of the Target Olympic Podium Scheme (TOPS), has been approved financial assistance of Rs. 17.5 lakh for the duration of the visit," it added.

He will be travelling to the US later this week along with his American coach Ron Simms Jr, and they will train at the Alexandria Boxing Club in Virginia till November 30. The exposure was recommended by Indian boxing's High-Performance Director Santiago Nieva.

Vikas had expressed a desire to resume his professional career in the USA, where he is undefeated. He is contracted with Hall of Famer Bob Arum's Top Rank Promotions.

In a recent interview to PTI, the Haryana-lad had stated that he expects to get at least three fights before heading back to India to join the national camp next year.

"I am in touch with Top Rank Promotions. They have promised to arrange fights for me and I hope to compete in 3-4 bouts before the Olympics," he had said.

He will be making his third Olympic appearance in Tokyo next year, and is the most experienced among the five men who have made the cut so far.

BCCI President Sourav Ganguly in Dubai to oversee IPL 2020 preparations

New Delhi, Sept. 10- Board of Control for Cricket in India (BCCI) President Sourav Ganguly on Wednesday left for Dubai to oversee preparations for a bio-secure IPL beginning on Sept. 19.

Defending champions Mumbai Indians (MI) will face Chennai Super Kings (CSK) in the opening match of the T20 event, which has been moved to the UAE due to the rising COVID-19 cases in India. "My first flight in 6 months to dubai for IPL...crazy life changes," Ganguly posted on his Instagram handle with a picture in which he is wearing a mask and face shield, part of the Standard Operating Procedure (SOP) while flying amid the pandemic.

The BCCI was able to create a window for the IPL following the postponement of the T20 World Cup in Australia, scheduled for October-November.

The Board would have faced a revenue loss of Rs. 4,000 crore

if the tournament, which usually takes place in April-May, had not got the go ahead.

IPL Chairman Brijesh Patel is among the other key officials who are already in Dubai. The tournament, despite its strict health safety measures, has already endured instances of contingent members testing positive for the dreaded virus. CSK has been the worst affected with 13 of its members, including two players, in quarantine after testing positive.

Fans will not be allowed inside stadiums when the league starts but some crowd might be approved in the later stages of the tournament after a review of the COVID-19 situation. The event will be played at three venues — Dubai, Sharjah and Abu Dhabi.

US OPEN

MATCHES TOMORROW (SEPT. 11)

Final - Men's Double

Mate Pavić & Bruno Soares Vs
8 Nikola Mektić & Wesley Koolhof — **12.30 am**
